

FOUR GENERATIONS STRONG!

Janak Packing Inc. Opened its doors for business in 1938 on the heels of the great depression. Paul and Mary Janak opened a small grocery store and meat locker service for the locals around Lavaca county. Requests soon started coming in for him to make his czech style sausage that had been a family staple. A lot has changed since those early days with Leroy Janak, one of the six kids Paul bought out the business in 2011 with his wife Alice and son Mark & wife Karen and their children to keep up the traditions. Janak's still uses Hickory wood chips for our smokey taste, as well as the same blend of spices that many have come to know and love. Only the most premium pork and beef ever makes it into our products, and that's the way we plan to continue to do business.

JANAK PACKING, INC.
